EXPLANATORY NOTES

1. In all the tables of imports in this Report, the quantities and values are based upon the declarations of importers (import entries), as subsequently checked by Customs officials.
2. Weight, where shown is the net weight of the goods, that is, it excludes the weight of the covers or receptacles, except in cases of certain goods, as provided in the Customs Tariff.
3. The expression "ton" means 2,000 pounds, and "cwt." 100 pounds, avoirdupois. Where other units of quantity are used, Imperial standards apply.
4. In this Report are trade items such as "Engines, gas, n.o.p., and parts", which show both quantities and values. In the item "Engines, gas, n.o.p., and parts", the quantity represents the number of complete gas engines only, while the value represents not only the value of the specified number of complete gas engines but also the value of all kinds of "Parts" of gas engines; therefore, in this item, and in similar items, the average value per unit cannot be ascertained.
5. "Imports" means "Imports entered for Consumption". "Entered for Consumption" does not imply that the goods have been actually consumed in Canada, but that they have passed into the custody of the importer and that duty has been paid on the dutiable portion.
6. For statistical purposes, the value of merchandise imported, as shown in this Report, is the value as determined for Customs duty purposes. In most cases, this would be the invoice value of the goods converted to Canadian dollars at authorized exchange ratios. The value does not include charges such as freight, insurance, handling, duties or taxes.
7. Imports into Canada are classified as received from the countries whence they were consigned to Canada. The countries of consignment are the countries from which the goods have come, without interruption of transit, except in the course of transshipment or transfer from one conveyance to another. The countries whence goods are consigned are not necessarily the countries of actual origin, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to Canada. In such cases the second country would be the country of consignment to which the goods would be credited. An example is the case of tea grown in the Orient but purchased in the bonded market in London, England; Canadian statistics record such imports as coming from the United Kingdom.
8. The initials "N.O.P." mean "not otherwise provided for".
9. Some of the descriptions of articles used in this Report are abbreviated and incomplete due to lack of space and mechanical limitations. Full descriptions are shown in the annual printed report of the Trade of Canada.
10. Throughout this Report, figures are subject to revision.
11. The Foreign Trade of Newfoundland is included as from April 1, 1949.

EXPLANATORY NOTES

1. In all the tables of imports in this Report, the quantities and values are based upon the declarations of importers (import entries), as subsequently checked by Customs officials.
2. Weight, where shown is the net weight of the goods, that is, it excludes the weight of the covers or receptacles, except in cases of certain goods, as provided in the Customs Tariff.
3. The expression "ton" means 2,000 pounds, and "cwt." 100 pounds, avoirdupois. Where other units of quantity are used, Imperial standards apply.
4. In this Report are trade items such as "Engines, gas, n.o.p., and parts", which show both quantities and values. In the item "Engines, gas, n.o.p., and parts", the quantity represents the number of complete gas engines only, while the value represents not only the value of the specified number of complete gas engines but also the value of all kinds of "Parts" of gas engines; therefore, in this item, and in similar items, the average value per unit cannot be ascertained.
5. "Imports" means "Imports entered for Consumption". "Entered for Consumption" does not imply that the goods have been actually consumed in Canada, but that they have passed into the custody of the importer and that duty has been paid on the dutiable portion.
6. For statistical purposes, the value of merchandise imported, as shown in this Report, is the value as determined for Customs duty purposes. In most cases, this would be the invoice value of the goods converted to Canadian dollars at authorized exchange ratios. The value does not include charges such as freight, insurance, handling, duties or taxes.
7. Imports into Canada are classified as received from the countries whence they were consigned to Canada. The countries of consignment are the countries from which the goods have come, without interruption of transit, except in the course of transshipment or transfer from one conveyance to another. The countries whence goods are consigned are not necessarily the countries of actual origin, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to Canada. In such cases the second country would be the country of consignment to which the goods would be credited. An example is the case of tea grown in the Orient but purchased in the bonded market in London, England; Canadian statistics record such imports as coming from the United Kingdom.
8. The initials "N.O.P." mean "not otherwise provided for".
9. Some of the descriptions of articles used in this Report are abbreviated and incomplete due to lack of space and mechanical limitations. Full descriptions are shown in the annual printed report of the Trade of Canada.
10. Throughout this Report, figures are subject to revision.
11. The Foreign Trade of Newfoundland is included as from April 1, 1949.

you know
how your
business
fits
into
the
Canadian
scene . . .

but what about the rest
of
the
world?

what do you know about your
competitors abroad? . . . possible new
sources of supply? . . . the overseas markets where there are chances for you to sell?

you'll find the answers to these and many other questions in *foreign trade*, weekly publication of the Department of Trade and Commerce. Canadian Trade Commissioners in some fifty offices around the world report to you through the pages of *foreign trade*.

in *foreign trade* you will find

news about export opportunities
reports on overseas markets
leads on new sources of supply
news about your foreign competition
the latest foreign trade and tariff regulations
up-to-date reports on business conditions around the world

Supervisor of Government Publications,
The Queen's Printer,
Ottawa, Canada.

Please send me *Foreign Trade* for one year. Enclosed is my cheque/money order for \$2.00* made payable to the Receiver General of Canada.

EXPLANATORY NOTES

1. In all the tables of imports in this Report, the quantities and values are based upon the declarations of importers (import entries), as subsequently checked by Customs officials.
2. Weight, where shown is the net weight of the goods, that is, it excludes the weight of the covers or receptacles, except in cases of certain goods, as provided in the Customs Tariff.
3. The expression "ton" means 2,000 pounds, and "cwt." 100 pounds, avoirdupois. Where other units of quantity are used, Imperial standards apply.
4. In this Report are trade items such as "Engines, gas, n.o.p., and parts", which show both quantities and values. In the item "Engines, gas, n.o.p., and parts", the quantity represents the number of complete gas engines only, while the value represents not only the value of the specified number of complete gas engines but also the value of all kinds of "Parts" of gas engines; therefore, in this item, and in similar items, the average value per unit cannot be ascertained.
5. "Imports" means "Imports entered for Consumption". "Entered for Consumption" does not imply that the goods have been actually consumed in Canada, but that they have passed into the custody of the importer and that duty has been paid on the dutiable portion.
6. For statistical purposes, the value of merchandise imported, as shown in this Report, is the value as determined for Customs duty purposes. In most cases, this would be the invoice value of the goods converted to Canadian dollars at authorized exchange ratios. The value does not include charges such as freight, insurance, handling, duties or taxes.
7. Imports into Canada are classified as received from the countries whence they were consigned to Canada. The countries of consignment are the countries from which the goods have come, without interruption of transit, except in the course of transshipment or transfer from one conveyance to another. The countries whence goods are consigned are not necessarily the countries of actual origin, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to Canada. In such cases the second country would be the country of consignment to which the goods would be credited. An example is the case of tea grown in the Orient but purchased in the bonded market in London, England; Canadian statistics record such imports as coming from the United Kingdom.
8. The initials "N.O.P." mean "not otherwise provided for".
9. Some of the descriptions of articles used in this Report are abbreviated and incomplete due to lack of space and mechanical limitations. Full descriptions are shown in the annual printed report of the Trade of Canada.
10. Throughout this Report, figures are subject to revision.
11. The Foreign Trade of Newfoundland is included as from April 1, 1949.

you know
how your
business
fits
into
the
Canadian
scene . . .

but what about the rest
of
the
world?

what do you know about your
competitors abroad? . . . possible new
sources of supply? . . . the overseas markets where there are chances for you to sell?

You'll find the answers to these and many other questions in *foreign trade*, weekly publication of the Department of Trade and Commerce. Canadian Trade Commissioners in some fifty offices around the world report to you through the pages of *foreign trade*.

In *foreign trade* you will find

news about export opportunities
reports on overseas markets
leads on new sources of supply
news about your foreign competition
the latest foreign trade and tariff regulations
up-to-date reports on business conditions around the world

Supervisor of Government Publications,
The Queen's Printer,
Ottawa, Canada.

Please send me *Foreign Trade* for one year. Enclosed is my cheque/money order for \$2.00* made payable to the Receiver General of Canada.

EXPLANATORY NOTES

1. In all the tables of imports in this Report, the quantities and values are based upon the declarations of importers (import entries), as subsequently checked by Customs officials.
2. Weight, where shown is the net weight of the goods, that is, it excludes the weight of the covers or receptacles, except in cases of certain goods, as provided in the Customs Tariff.
3. The expression "ton" means 2,000 pounds, and "cwt." 100 pounds, avoirdupois. Where other units of quantity are used, Imperial standards apply.
4. In this Report are trade items such as "Engines, gas, n.o.p., and parts", which show both quantities and values. In the item "Engines, gas, n.o.p., and parts", the quantity represents the number of complete gas engines only, while the value represents not only the value of the specified number of complete gas engines but also the value of all kinds of "Parts" of gas engines; therefore, in this item, and in similar items, the average value per unit cannot be ascertained.
5. "Imports" means "Imports entered for Consumption". "Entered for Consumption" does not imply that the goods have been actually consumed in Canada, but that they have passed into the custody of the importer and that duty has been paid on the dutiable portion.
6. For statistical purposes, the value of merchandise imported, as shown in this Report, is the value as determined for Customs duty purposes. In most cases, this would be the invoice value of the goods converted to Canadian dollars at authorized exchange ratios. The value does not include charges such as freight, insurance, handling, duties or taxes.
7. Imports into Canada are classified as received from the countries whence they were consigned to Canada. The countries of consignment are the countries from which the goods have come, without interruption of transit, except in the course of transshipment or transfer from one conveyance to another. The countries whence goods are consigned are not necessarily the countries of actual origin, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to Canada. In such cases the second country would be the country of consignment to which the goods would be credited. An example is the case of tea grown in the Orient but purchased in the bonded market in London, England; Canadian statistics record such imports as coming from the United Kingdom.
8. The initials "N.O.P." mean "not otherwise provided for".
9. Some of the descriptions of articles used in this Report are abbreviated and incomplete due to lack of space and mechanical limitations. Full descriptions are shown in the annual printed report of the Trade of Canada.
10. Throughout this Report, figures are subject to revision.
11. The Foreign Trade of Newfoundland is included as from April 1, 1949.

you know
how your
business
fits
into
the
Canadian
scene . . .

but what about the rest
of
the
world?

what do you know about your
competitors abroad? . . . possible new
sources of supply? . . . the overseas markets where there are chances for you to sell?

you'll find the answers to these and many other questions in *foreign trade*, weekly
publication of the Department of Trade and Commerce. Canadian Trade Commissioners in some 60
offices around the world report to you through the pages of *foreign trade*.

in *foreign trade* you will find

news about export opportunities
reports on overseas markets
leads on new sources of supply
news about your foreign competition
the latest foreign trade and tariff regulations
up-to-date reports on business conditions around the world
